

Durst Load Bank

LBT-48-144C

Durst mobile switched load bank, offering maximum capacity with ease of use.

Features:

- A true portable high capacity load bank
- Digital meters Volt & Amp (Requires. 240 Vac)
- Banana terminals for connection to Data logger
- Fan cooled
- 100% duty cycle
- Nominal voltage 48 Volts DC
- Nominal Amps Switching 3 X 6 Position 0-144A
 - Switch 3. 6 position of 8 amps each Total 48 Amps DC
 - Switch 2. 6 position of 8 amps each Total 48 Amps DC
 - Switch 1. 6 position of 8 amps each Total 48 Amps DC
- Reverse polarity warning light
- Internal wiring high temperature silicone
- Dc leads 35mm² Flexible Cable 2 Mtrs long
- Suitable for Aviation, Defence, Solar, UPS system, etc
- Powder coated steel cabinet
- Fully insulated clamp, colour coded
- Designed in Australia for Australian conditions & climate
- Custom Built to your requirements on request
- Models available for other voltages and currents
- Carry version available upon request
- More Load for your \$
- Size W=450mm D=520 H=800 (1020 Including handle)
- Weight 46 Kgs.

Durst Load Bank
Model LBT24-252D
Shown in Picture

Optional Features

- Anderson plugs & Sockets
- Terminals for Amp leads
- Analogue Volt meter with dual sprung movement
- Analogue Amp meter with dual sprung movement
- Pneumatic wheels 250mm Diameter
